Tuberose, Mexican Single. The freest and surest bloomer of all the tuberoses, giving flowers outdoors from midsummer to frost, and indoors for six weeks longer. Directions enclosed in every shipment. 1 for 10c, 3 for 25c, 7 for 50c, 16 for \$1.00, 100 for \$5.00.

All prices include postage. Please order early.

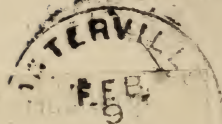

Oronogo Flower Gardens

Cartersville, Mo.

The "Ornamental Climber" I sent above Lacks of identification by the botanist at the Experiment Station at Columbia, Mo. Only a small plant was available. I found it, growing wild here. Suspect it to be an ampelopsis, but botanist thought not. Leaf said to be like Vitis Riparia, but vine has smooth, light grey bark.
